

# TOWN OF LOOMIS

## Attention Builders/Designers

As of January 1, 2011, the Town of Loomis will be enforcing the requirements of the 2010 California Building Code including the California Dwelling Code and the California Green Building Code.

Plans being submitted for Dwellings Units must include the following;

1. A separate plan showing the site with surface drainage plan that manage the surface water flows. Show all swales, water collection and disposal, French drains, water retention gardens and other water measures which keep surface water away from buildings and aid in groundwater recharge.
2. Plumbing Fixture Schedule showing the water use of all fixtures, fixture flow rates, and fixture standards.
3. Construction waste management plan showing materials to be disposed of and material to be recycled. A letter from the disposal site indicating that a collection bin will be on site during the job.
4. All dwellings units must be equipped with a fire suppressions sprinkler system. Please submit a sprinkler plan with the building plans at your time of submittal.
